

15KW 20KW 25KW 30KW LiFePo4 Solar Lithium-Ion Rack Battery

Can LiFePO4 batteries work with Sol-Ark 15K?

Looking to get LifePO4 batteries to work with the Sol-Ark 15K. I'm a bit confused with the open loop / closed loop features. I contacted Sol-Ark and was told that in order to work with this inverter, the battery must "allow open loop so we can control through settings inside the Inverter"

What is a 20kWh battery bank?

This battery bank is designed in the Eg4ll / Gyll style and has a capacity of 20kWh. It is built using 48V 400Ah Lifepo4 batteries with an internal BMS. This system consists of 16S prismatic cells for a 48V system. The design is intended for solar off-grid systems, and it uses 16 prismatic 3.2V cells in series to provide the 20kWh battery storage.

How a 20kWh battery works?

This 20kwh battery come with built in Bluetooth. Provide all battery information and display to mobile phone App. User can easy check battery working state like voltage, discharge current, cell balance, SOC.. and so on. In additional, user can use a RS485 or CANbus to communicate with computer software or communicate directly with your inverter

How long does a lithium ion battery last?

The battery uses A+++Cells that are UL listed and designed for over 7000 cycles at 80% depth of discharge, meaning it can last for more than 15 yearseven with daily deep discharge. The battery has Bluetooth connectivity which makes it easy to set up and monitor using your mobile phone.
