

24v Power Wall Mounted Battery for Mini Micro Balcony Solar PV Storage System Sipani Battery

Thanks to a storage system consisting of a Zendure SolarFlow PV Hub and at least a 960Wh AB1000 expansion battery or 1920Wh AB2000, the provision of solar energy from a mini PV system is no longer limited to one day. After being delivered to consumers, the energy produced is stored in a Zendure battery saved so it can be used at night or in areas with little sunlight.
