

51 2V280 Rack Lifepo4 Battery Gobel Energy

Who is Gobel energy?

GOBEL ENERGY is a brand founded by Shenzhen Good Leader Technology Co.,Ltd. We are a professional,rich experienced,and strong technical team of lifepo4 battery manufacturers,integrating cell +BMS management +Pack structure design and customization. It focuses on the development and custom production of lithium iron phosphate batteries.

Are Gobel power batteries LSEV?

Wheels: Easily Move All Gobel Power batteries (GP-SR1) must undergo rigorous full cycling tests before being shipped. Some standards for battery with LSEV cells are: The maximum charging voltage when a single cell triggers overvoltage protection: $\geq 56V$ (The standard ensures that all battery cells possess commendable uniformity).

Why is cell consistency important in a LiFePO4 battery?

In the context of a lithium iron phosphate (LiFePO4) battery,this means that each cell in the battery should ideally have the same capacity,internal resistance,self-discharge rate,and other key parameters. The importance of cell consistency in a LiFePO4 battery lies in its impact on the overall performance and lifespan of the battery.

What are the standards for battery with LSEV cells?

Some standards for battery with LSEV cells are: The maximum charging voltage when a single cell triggers overvoltage protection: $\geq 56V$ (The standard ensures that all battery cells possess commendable uniformity. The lower the voltage value,the poorer the consistency.)
