

ARK XH Battery Growatt New Energy

What is a Growatt Ark XH battery system?

The Growatt ARK XH Battery System is a state of the art lithium iron phosphate (LiFePO₄) battery with a flexible capacity between 5.12kWh to 17.92kWh. Due to its cobalt-free battery chemistry, this system is safe, reliable, and contains conflict-free materials.

How does the Ark XH battery system work?

The ARK XH Battery System has a modular design facilitating an easy installation. The battery also receives over-the-air (OTA) firmware upgrades. The battery system's monitoring parameters include state of charge (SOC), system voltage, current, cell voltage, cell temperature and PCBA temperature.

What is Growatt Ark 2.5h-a1 high voltage battery?

Growatt ARK 2.5H-A1 High Voltage Battery (for ARK XH/HV Systems) Growatt ARK 2.5H-A1 high voltage battery unit is part of the ARK XH and HV Battery Systems. These two storage systems are modular in design and stackable, so one can easily expand the storage capacity.

What is a Growatt Ark battery storage system?

The Growatt ARK battery storage system was designed modularly. Additional batteries can be stacked and connected in series, to increase the total capacity. The lithium-iron-phosphate battery (LFP) used in the Growatt ARK-series, is free from cobalt, which makes it cheaper. This battery will last more than 6,000 cycles.

Is the Ark XH battery system safe?

Due to its cobalt-free battery chemistry, this system is safe, reliable, and contains conflict-free materials. Compatible with hybrid inverters, the ARK XH Battery System offers multiple levels of protection. The ARK XH Battery System has a modular design facilitating an easy installation.

How many modules in Ark XH battery?

ark xh battery Number of Modules in Series & Energy Capacity 5.12kWh 7.68kWh 10.24kWh 12.8kWh 15.36kWh 17.92kWh LFP Chemistry · Modular Design, Simple Expansion Award ARK XH Battery (1) Growatt MIN 5000TL-XH (2) Growatt MIN 5000TL-XA Check More Details in Datasheet Check More Details in Manual Check More Details in Warranty System Installation

Growatt also offers customers its ARK XH battery system for a whole package of battery-ready solutions. The battery pack has a modular design, enabling easy installation and connection to the inverter, with its Lithium-iron-phosphate (LFP) material ensuring high stability and security as well as enhanced durability.

Combine with PV, Battery and Generator to reliaze 24/7 power backup. Smart load conrtol to cut off the non-critical loads to save battery energy in off-grid condition. LV battery connection offers cost-effective solution. For SPM/SPE/WIT and SPH 10000HU series

De ARK-reeks biedt flexibele energieopties voor enkel-/driefasig, hybride/ac-gekoppelde en batterijklare oplossingen voor verschillende scenario's, met kobaltvrije LiFePO4-chemie, samen met meerlaagse bescherming van BMS en omvormers om de extreme veiligheid en betrouwbaarheid, uitstekende prestaties en een lange levensduur te garanderen.

Energy drives our cultural and economic progress, and in the long run, humanity and civilization itself rely on sustainable energy sources. With a vision to build a green and sustainable future, a group of pioneers in the global PV industry headed by David Ding came together in 2011 and founded Growatt.

ARK family offers flexible energy options for single/three phase, hybrid/ac-coupled, and battery-ready solutions for different scenarios, which adopts Cobalt free LiFePO4 chemistry, together with multiple level protection from BMS and inverters to ensure its extreme safety and reliability, excellent performance, and a long lifespan.
