What is a solar ground mounting system?

AS Aluminum Solar Ground Mounting System uses anodized aluminum alloy structure, making the whole system light-weight, durable, recyclable and highly strong. Flexibility in height and angle adjustment makes the system applicable for different types of land forms.

What is a al6005-t5 Solar Roof mounting splice?

Description: 1) Material :Anodized AL6005-T5 2) The solar roof mounting splice features easy and efficient installation . 3) Warranty :10 years 4) Standard compliance : AS/NZS 1170 and other international standards.

Specifications: Technical Specifications o Roof pitch: up to 60 degree o Anodized thickness: 12-14 microns
