

Should Angola invest in energy storage solutions?

With the ongoing solar projects under development in Angola with an installed capacity amounting to 500 MW, it is urgent to start thinking about efficient energy storage solutions. What structural challenges must be addressed for Angola to seize its renewable energy potential?

How can Angola benefit from decarbonization technologies?

Through the continued exploitation of its oil and gas reserves,utilizing decarbonization technologies,Angola stands to benefit from its significant resources,alleviating energy poverty while pursuing cleaner energy sources. Distributed by APO Group on behalf of Energy Capital &Power.

Can Angola deploy pumped-storage hydroelectricity & hydrogen solutions?

Fernando Prioste,CEO of COBA Group,talks to The Energy Year about Angola's potentialfor deploying pumped-storage hydroelectricity and hydrogen solutions as it develops a robust energy industry and the central role of COBA Group in the country's power arena.

Can Angola achieve energy self-sufficiency?

Angola has everything it needs to achieve energy self-sufficiencythrough renewable sources - not only water,but also sun and wind. With these three natural resources,Angola could achieve the transition from oil and gas to renewable energies,and then boost its energy self-sufficiency.

Does Cobra have a large footprint in Angola's water and energy sector?

COBA has a large footprintin Angola's water and energy sector. As authors of the National Water Plan and of the National Irrigation Plan,finished in 2015 and 2011,respectively,we collected a huge amount of data from the country's soils,climate and water resources.

How can Angola contribute to the energy transition?

Angola is focused on driving the energy transition but is calling for an adapted approach. Through the continued exploitation of its oil and gas reserves, utilizing decarbonization technologies, Angola stands to benefit from its significant resources, alleviating energy poverty while pursuing cleaner energy sources.
