What is a dice game & how does it work?

Using nothing but dice and a randomly generated territory map made of hexagons, the game is similar in gameplay to that of the board game, Risk, though much simpler and quicker to play. The objective is to conquer all territories and eliminate all your opponents by attacking them with dice.

Is dicewars free?

It's Free- GreatMathGame. Dicewars is an exciting strategy game that lets you conquer enemy territory using the power of your dice. Despite the serious nature of wars, this game turns it into an enjoyable experience. Your objective is to take over the world or the entire map by rolling your dice and scoring higher than your opponent.

How do you play dice Wars?

Wars are a terrible thing. But turn them into a fun little dice game, and you can enjoy it quite a bit. In DiceWars your job is to conquer the world, or at least the entire map, using the power of your dice. Roll them, add them up and try to beat your opponent's score.

How do you get more dice in dicewars?

After an attack, you earn more dice, based on the number of territories you occupy. You can then distribute them as you see fit. DiceWars requires both luck and strategy, but the key to success is expanding your territory. Be sure not to get frustrated and throw your device in anger.

Can you transfer dice?

Remember that no one can transfer dice. That lack of transferring ability means you are better off in the middle of the game to "saturate" your territory with 8 dice. Having done so, replacements will guaranteed show up where you need them. Keep your lands connected. You (and the AI) only get replacements for the largest connected area.
