PWRcell can be upgraded with additional battery modules when energy requirements change. The system is customizable, and can expand up to 40 kWh of battery storage for 34.2 kWh of useable power at 80% discharge. Each single-phase, hybrid inverter can handle up to 10kW of PV DC solar input, and can deliver up to 8kW continuous AC output power.

study examines two possibilities: (1) a 20-kilowatt hour (kWh) battery energy storage (BES) system and (2) a 200-kWh BES system, as well as developing standard test procedures for assessing the suitability of battery technologies for use in such systems. A simple characterization test on the battery candidates for the BES system was developed.

Energy (kilowatt-hours, kWh) Energy, on the other hand, is more a measure of the "volume" of electricity - power over time.You'll usually hear (and see) energy referred to in terms of kilowatt-hour (kWh) units. The place you'll see this most frequently is on your energy bill - most retailers charge their customers every
