

Energy storage news conference

What is the battery and energy storage Conference?

December 9, 2024 to December 11, 2024 The Battery and Energy Storage Conference seeks to engage scientists, engineers, and policy makers working in the fields of energy storage and conversion technologies to identify, communicate, and explore current advancements in storage materials, devices, and systems.

Why should you attend the energy storage Conference?

Unlike other storage conferences, proceeds from the event help to fund high quality journalism across our media titles. Welcome to our Energy Storage Conference taking place in Austin, USA. Our two day event is the place for networking and learning amongst the entire industry.

What is the energy storage global conference (ESGC)?

The fifth edition of the Energy Storage Global Conference (ESGC) was held on 11 - 13 October 2022 and gathered over 365 onsite and online participants representing EU and national policymakers, utilities, DSOs, TSOs, suppliers, consultancies, the research community and National Regulatory Authorities.

Who are the delegates at the energy storage Conference?

Join us in February for the networking event of the year, bringing together over 2000 delegates from across Europe's energy storage value chain, spanning investors, developers, IPPs, banks, government and policy-makers, TSOs and DSOs, EPCs, optimisers, manufacturers, data and analytics providers, consultancies, system integrators and more.

What is the Energy Storage Summit?

Hosted in Texas, a renewable and business hub, as well as the driving force behind many energy storage installations in the US this year, the Summit is the perfect place to meet with fellow industry players and address the most critical market issues.

Is energy storage a necessity?

Planned and currently operational U.S. utility-scale battery capacity totaled over 16 GW at the end of 2023, with another 15 GW in 2024 and around 9 GW now expected in 2025. Energy storage is no longer an aside or a luxury; it is a necessity if we want to reach our global net-zero goals and stay on track.

Inspiration and Motivation: This conference will showcase successful case studies and real-world applications of energy storage technologies which will inspire you to apply your knowledge and skills more effectively.
Access to Experts and Thought Leaders: There will be featured keynote speeches and discussions led by experts and thought leaders in the energy storage field to ...

As reported by Energy-Storage.news in April, there is a lot of interest from industry in developing projects that would meet those targets - there was already 12GW of storage in state grid interconnection queues five

months ago. However, it is unlikely much of that capacity is long-duration energy storage of over four hours" duration.
