The GSL lithium battery is built for energy storage systems. It is a well-designed and high-performance standard battery pack. The battery is compact, easy to install, free of maintenance, and can be installed in parallel with the energy storage system to increase its capacity. It is widely used in home, small commercial, and industrial ...

GSL"s power storage ESS adopts the latest HESS battery system. With rich experience and advanced techniques, this kind of home battery provides house battery backup for emergency use, it has the features of the fashionable design, high energy, high power density, long service life, and easiness of installation and expansion.

GSL ENERGY Residential ESS utilizes advanced LiFePO4 cell technology, known for its superior thermal stability, high cycle life, and excellent safety profile. With its advanced Battery Management System (BMS) and modular design, this battery ensures long lifespan, high power density, and complete protection for your energy storage needs.
