

Why is Haiti struggling to modernise its energy sector?

Haiti's recent battles to modernise its energy sector serve as a stark lesson for how fraught the business of energy transition can be. In the wake of the scandal, the struggle to provide Haiti's 11 million people with reliable energy - and the desire to attract foreign investment to do so - has taken on an evermore politically charged hue.

Can private investment help solve Haiti's energy crisis?

"We have had this energy crisis for a long time, more than 20 years," says Evenson Calixte, managing director of Haiti's Autorit  Nationale de R gulation du Secteur de l' nergie (ANARSE), the nation's energy regulatory authority. "And we believe that one element that can help reform this sector is private investment."

Does Haiti's Mose need energy?

For Haiti's Mose, who has made the provision of energy nationwide the cornerstone of his presidency, the promise has taken on added urgency as the nation approaches general elections slated for 2021.

comprehensive analysis outlining energy storage requirements to meet U.S. policy goals is lacking. Such an analysis should consider the role of energy storage in meeting the country's clean energy goals; its role in enhancing resilience; and should also include energy storage type, function, and duration, as well

So, reducing energy consumption can inevitably help to reduce emissions. However, some energy consumption is essential to human wellbeing and rising living standards. Energy intensity can therefore be a useful metric to monitor. Energy intensity measures the amount of energy consumed per unit of gross domestic product.

KEY DATA & INFORMATION - HAITI's ENERGY SECTOR Population 10,646,714 (2017)¹ GDP (USD) Per Capita Jet Kerosene \$1,800 (2017 est.)¹ Debt: GDP Ratio 31.1% of GDP (2017 est.)¹ Human Development Index 0.498 (2017)² National Development Plan/ Overall Country Development Strategy National Energy Policy Renewable Energy (RE) Policy
