Press X to Doubt also referred to as L.A. Noire Doubt, is a reaction image meme, originating from Rockstar Games" L.A. Noire where players take on the role of a detective officer.. The reaction image macro is used online to express disbelief and suspicion in relation to a statement, thread or headline. It is mostly used as a reaction image macro, although it may be ...

Press X To Not Die is not a very long experience, but the price tag is also low enough to make it an impulse purchase. The branching storyline and Steam Leaderboards add to the replay value and there is even a "1994" mode that renders the visuals to look just like the 90s interactive movies. The game is currently in early access and the ...

Press X to stop an abomination eating your face, press X to wrestle an angry man with a mustache, press X to avoid death by ghost rape..... Done occasionally for key moments in Red Steel 2. Surprisingly, for a Wii game, these tend to eschew motion controls for more conventional "button and a direction" moves.

In General: On Password, Pyramid, or any other word-association game, giving the word itself as a clue automatically disqualifies it.; By Series: As seen on The Colbert Report: The Machine That Turns Itself Off. note . A more literal example. Doctor Who: In "The Beast Below", residents of Starship UK have the choice of protesting or forgetting when they learn that the spaceship is ...

Also known as a Quick Time Event. An event during a video game where you think you're watching a cinematic, but then a massive button pops up on screen, sometimes accompanied by a prompt like "Press X to dodge" or "Press B to avoid blades of death".. Failure to do so results in damage or an alternate scene at best, or a Game Over at worst. Originated in Dragon's Lair, ...
