Fibro-Solar is a sturdy photovoltaic mounting solution installed directly into the building's purlins. The reliability of this mounting system is supported by numerous tests (resistance to climatic stress, watertightness, condensation and corrosion resistance) which have enabled it to be validated by a New Technology Survey (Enquête de Technique Nouvelle - ETN).

EB-SOLAR The economical but solid photovoltaic mounting system EB-Solar is a photovoltaic mounting system for installing solar panels on sloping roofs. It is used on buildings with an uninsulated roof deck (steel deck with a trapezoidal profile). ... Dome Solar becomes a 100% subsidiary of the Kingspan - Bacacier group; ... - Pitched roofs ...

Dome Solar Roof-Solar PVC and Roof-Solar Tilted PVC photovoltaic systems are certified by a New Technology Survey (Enquête de Technique Nouvelle - ETN). Roof-Solar PVC also has a Broof (t3) fire resistance rating. The membrane is installed by mechanical fastening, i.e. waterproofing sheets are fixed using

suitable screws and plates.

The New Technology Survey (Enquête de Technique Nouvelle - ETN) which certifies the Ital-Solar mounting process approves the installation of this system up to 1 km from the coast, excluding conditions in which it is directly affected by sea water and sea spray (seafront). Dome Solar teams must use A4 grade stainless steel fasteners if your future installation is within 3 ...

Solution offrant un excellent rapport qualité-prix, la fixation photovoltaïque EB-Solar se fixe dans le bac. Ce procédé de montage est composé de mini rails (13 cm) qui vous sont livrés prêts à l'emploi. Une fois les ...

EB-SOLAR Single skin metal roofs; RB-SOLAR Single skin metal roofs; ... The Helios B&#178; system from Dome Solar is a solution for mounting photovoltaic panels on trapezoidal sheets and sandwich panels. ...  
- Pitched roofs: uninsulated roof deck or steel deck, sandwich panels and fibre-cement panels.

Dome Solar offers two types of application: fixing into the building's purlins (Ital-Solar, Helios B&#178;, Kogysun +) or fixing into the steel deck (EB-Solar, RB-Solar). In both cases, as soon as rails are fixed to the roof, External Clamps and then Universal Clamps are clipped on and photovoltaic panels can be installed.
