

SIS-3K 5K-H Hybrid Inverter

What is SIS series 3kw/5kw hybrid solar inverter?

SIS Series 3kW/5kW hybrid solar inverter has a colored LCD and a variety of communication functions. It can be remotely operated through the mobile phone APP, which is convenient and fast. It can output pure sine wave, run stable and reliable. Replaceable fan design enables customers to maintain safety and convenience.

What is a SIS series solar inverter?

Self-consumption and feed in to the grid. Maximum 9 pcs for parallel operation. Pure sine wave output. Programmable supply priority. SIS Series 3kW/5kW hybrid solar inverter is suitable for the household photovoltaic energy storage system. DC power generated by solar panels is stored in the battery through the inverter.

What is a 3KW hybrid inverter?

This 3KW Hybrid Inverter is multifunctional as it is a combination inverter. It has a solar charger and a battery charger to offer power support. It combines AC utility with a solar system and a battery source to supply continuous power.

What is a 5kw hybrid solar inverter?

The Deye 5kW Hybrid Solar Inverter is at the forefront of solar technology, offering a seamless blend of performance and versatility. This inverter is designed to manage essential and non-essential loads effortlessly, ensuring your home remains powered during outages.

Which solar inverter is suitable for a household photovoltaic energy storage system?

Pure sine wave output. Programmable supply priority. SIS Series 3kW/5kW hybrid solar inverter is suitable for the household photovoltaic energy storage system. DC power generated by solar panels is stored in the battery through the inverter. When electricity is needed, it is first supplied by solar panels.

What is sh5k hybrid inverter?

SH5K hybrid inverter also provides one Digital Output node, which can intelligently control the household appliances (such as water heaters, pumps etc..) with a simple external device. The control modes are: * Timed control; * Real-time control through APPs; * Intelligent and optimal control via the inverter.
