

## SMILE-S6-HV Alpha ESS

Does alphaess smile-s6-hv have battery storage?

AlphaESS SMILE-S6-HV residential storage batteries is available for DC-coupling, AC-coupling and hybrid-coupling connection and working with multiple battery options. This HV trooper is able to operate in full off-grid scenario with full 6kVA backup. Click to learn more about AlphaESS SMILE-S6-HV 6kW Battery Storage now!

How powerful is the Alpha ESS Smile s6-hv?

More powerful than its predecessor, the Alpha ESS Smile S6-HV also offers higher efficiency through increased charging capability at high-use times. This energy storage system accepts up to 9 kW of solar panel/photovoltaic cell input while simultaneously outputting 6 kW of power.

How many batteries can a smile S6 HV battery system use?

This means when the solar panels are producing maximum energy, it is stored for later use as opposed to going to waste. Our Smile S6 HV battery systems can pair with up to six batteries, with the large 8.2 kWh battery expanding your storage capacity to 49.2 kWh.

What is the operating temperature range of smile-s6-hv?

Editing liability excluded. SMILE-S6-HV -10 °C ~ 55 °C\*32 A -10 °C ~ 55 °C\*\*When the ambient temperature is too low or too high, the performance of battery may be limited. \*\*Under specific test conditions Operating Temperature Range Capacity Range 5 ~ 30.0 kWh (95% DoD) 8.2 ~ 49.2 kWh (95% DoD)

Does smile S6 HV go on-grid?

A single phase, high voltage residential battery system with the ability to go on-grid and off-grid. The Smile S6 HV goes the extra mile with its ability to be on-grid and off-grid. If you experience a power cut or disconnect from the grid, the automated islanding function will kick-in and use your stored electricity to power your home.

What is a good temperature for a smile-s6-hv battery?

Modifications. All information is without guarantee in spite of careful editing liability excluded. SMILE-S6-HV -10 °C ~ 55 °C\*32 A -10 °C ~ 55 °C\*\*When the ambient temperature is too low or too high, the performance of battery may be limited. \*\*Under specific test conditions

# SMILE-S6-HV Alpha ESS

Nantong,

This ESS series comes with a three-phase hybrid inverter and 3.8kWh batteries. The system supports 182mm solar panels and can achieve 200% PV input with 3 MPPT. With enhanced backup overload capability, it can handle 150% overload for 30s, protecting against unstable grids. Overall, it meets the full power range needs of residential three-phase applications.
