

Solarworx was founded in Berlin in 2017 by two engineers Felix Boldt and Jakob Schily and the entrepreneur Franz Josef Buschmeier. The goal is to develop and produce a new generation of sustainable and affordable solar energy systems for countries in the global south. In doing so, the founders can draw on many years of experience in rural ...

Solarworx is a German manufacturer of a new generation of solar home systems for off-grid households and businesses. Our goal is to foster the global energy transition and connect the 1.2 billion people living without access to electricity around the world. With our productive use bundles we aim to create local value and circular economy within ...

Pictures by PaygOps and Solarly. We are thrilled to present a new and exciting Paygo-enabling hardware: the Paygo & Monitoring Dongle, developed by Solarworx in close collaboration with Victron Energy, to turn some of Victron Energy devices into Paygo. This innovative Dongle is fully compatible with PaygOps and other last-mile management software, ...

No technician is needed to install the Solarworx Water Pump Kit. Additional LEDs or other appliances can be powered by using y-cables. The USB ports can be used for phone charging and running smaller devices such as radios and ventilators. Compatible with a range of products.

Solarworx is pleased to announce its participation in the Global Off-Grid Solar Forum and Expo, from October 8 to 10, 2024, at the Kenyatta International Conference Centre in Nairobi, Kenya. This event, organized by GOGLA, brings together global leaders in off-grid solar technology. We invite attendees to visit our booth A42+A43 in Tent B to...

Since the initiation of SolarWorX Felix is in charge of product and business development. He previously worked as an environmental engineer for clean-tech companies in the wind and off-grid energy sector. More recently he focused on Solar Home Systems development and management in East Africa and therefore speaks Kiswahili fluently.

Mumbwa, Zambia, 30th October 2021 - Solarworx has been able to complete the first pilot installation of its innovative DC Microgrid in the area of Mumbwa, Zambia. The grid builds upon existing Solar Home Systems from Solarworx or other manufacturers and allows sharing the excess power from solar panels or battery capacity. Costs are ...

No technician is needed to install the Solarworx Barber Shop Kit. Additional LED Lamps or other appliances can be powered by using y-cables. The USB ports can be used for phone charging and running smaller devices such as radios and ventilators. Compatible with a range of products.

At Solarworx we look at your average power usage, the space you have available for solar and find the sweet spot to maximise your investment. We don't just want to sell you the biggest and most expensive system as this does nothing for your payback time, and ...

SolarWorX's existing key markets are Cameroon, Zambia and Nigeria, with South Africa as its base for selling to the sub-Saharan region. New targeted countries have a high proportion of citizens living off the grid, and thus represent a massive addressable market, which can benefit greatly from a large-scale rollout of affordable off-grid power systems.

No technician is needed to install the Solarworx Lighting Kit. The USB ports can be used for phone charging and running smaller devices such as radios and ventilators. The lamp switches can also be wall-mounted. Compatible with a range of products. LCD TV.

Solarworx was a pleasure to work with, from start to finish. They designed and submitted my project at lightning speed to meet the regulatory deadline earlier this year. During installation there was one small issue with panel placement that was quickly rectified. Everything looks great, despite the need to navigate a complicated roof line.

So far, 5,500 Solarworx Paygo smart switches have been installed (as of August 2022) and are running smoothly at client premises across all of FRES countries, with 100% of the contracts being managed through PaygOps. In Uganda, for example, of the 3491 switches currently installed, only 230 customers with Paygo switches didn't pay in the ...

Solarworx a conçu des systèmes solaires domestiques innovants pour les ménages et les entreprises qui n'ont pas accès au réseau électrique. Notre objectif est d'accélérer la transition énergétique mondiale et de fournir de l'énergie aux 1,2 milliard de personnes qui vivent sans accès à l'électricité dans le monde.

Therefore Solarworx has developed the next generation of PayGo Solar Home System. Our solutions are modular, smart and affordable. We are currently strengthening our presence in Africa and Southeast Asia. That is why we are looking for top-tier Distributor Partners to solve the global energy access problems

SolarWorx

together.
